

Suleiman Khashashneh

Full Stack Web Developer

+962 777279537 | suleiman97kh@gmail.com | [linkedin.com/in/suleimankhashashneh](https://www.linkedin.com/in/suleimankhashashneh) | github.com/SuleimanKh97 | Irbid, Jordan

SUMMARY

Full Stack Web Developer with hands-on experience across the front end (HTML, CSS, Bootstrap, JavaScript, TypeScript, Angular) and back end (C#, ASP.NET Core, SQL Server), built through 900+ hours of technical training and 100+ hours of soft-skills development at Orange Coding Academy. Led or contributed to seven full-stack projects in Scrum Master and Product Owner roles, shipping role-based, API-driven web applications with secure authentication, and currently builds real-time, event-driven web dashboards and automated testing pipelines in a production engineering role. Combines strong Agile delivery experience with an engineering background in cross-functional teamwork and requirements analysis.

SKILLS

Front-End: HTML, CSS, Bootstrap, JavaScript, TypeScript, Angular

Back-End: C#, ASP.NET (Web Forms, MVC, Core Web API), Firebase

Databases: SQL Server, Oracle, PostgreSQL

Tools & Practices: Git, GitHub, Docker, Visual Studio/VS Code, Figma, Jira, Trello, SSRS, Agile/Scrum, Windows Server

Professional: Requirement Analysis, Data Analytics, Project Management, Critical Thinking, Cross-Functional Collaboration

EXPERIENCE

Web Developer & IoT Engineer

May 2026 – Present

Smart Cloud

Jordan

- Engineered scalable, real-time data ingestion and processing pipelines using event-driven architectures to handle high-frequency system telemetry and state management
- Designed data transformation logic and custom calculated fields to filter, aggregate, and process streaming data on the fly, and built responsive data-visualization widgets for low-latency analytics dashboards
- Built Python unit-testing suites to strengthen code reliability, error handling, and test coverage across backend services
- Integrated Python-based AI/ML models into the backend pipeline for predictive analytics and automated decision-making while maintaining database integrity and security

Full Stack Web Development Intern

May 2025 – June 2025

Hikayatajloun – Orange Coding Academy

Jordan

- Contributed to community-centered web solutions built with HTML, CSS, JavaScript, and ASP.NET Core during a one-month, real-world development internship
- Collaborated with cross-functional teams to analyze user requirements, implement user-friendly features, and apply Agile methodologies with Git and Trello; engaged in pair programming and code reviews

Full Stack Web Development Trainee

Dec 2024 – May 2025

Orange Coding Academy

Irbid, Jordan

- Developed and maintained responsive front-end interfaces using HTML, CSS, Bootstrap, and JavaScript, improving user experience across training projects
- Designed and refined back-end services with ASP.NET Core MVC and SQL Server, including secure authentication/authorization and efficient database architecture

Energy Efficiency Consultant

Sep 2023 – Feb 2024

UNDP

Jordan

- Advised on and integrated energy-efficiency technologies across multiple electrical engineering projects; conducted on-site assessments to ensure compliance with national codes

Electrical Engineer

Apr 2022 – Mar 2024

Ministry of Local Administration

Jordan

- Supervised regulatory compliance for local councils and coordinated cross-department teams to improve administrative and operational efficiency

PROJECTS

- Halal Souq – Livestock E-Commerce Platform** | *Angular, ASP.NET Core Web API, SQL* | [GitHub](#)
- Built a full-stack livestock marketplace with JWT-secured, role-based dashboards (Buyer, Seller, Admin) covering auctions, order management, messaging, cart, and interactive maps, using clean architecture (DTOs, route guards, dependency injection)
- HR Management System** | *C#, ASP.NET Core MVC, SQL, Bootstrap, JavaScript* | [GitHub](#)
- Built employee/manager/HR dashboards for task management, attendance, leave requests, and PDF reporting with a 6-person team, adding password encryption, voice search, and email notifications via Agile practices
- Library Management System** | *ASP.NET WebForms, HTML, CSS, Bootstrap, JavaScript* | [GitHub](#)
- Built book search, authentication, reservations, borrowing/returning, and study-room booking features plus an admin dashboard, collaborating with a 6-person Agile team using Figma and Trello

EDUCATION

- | | |
|--|----------------------------|
| Orange Coding Academy | Irbid, Jordan |
| <i>Full Stack Web Development Bootcamp – in collaboration with Simplon.co and PSUT</i> | <i>Dec 2024 – May 2025</i> |
| Yarmouk University | Jordan |
| <i>Bachelor’s Degree in Electrical Power and Machines Engineering</i> | <i>Sep 2015 – Sep 2020</i> |

CERTIFICATIONS

- Cybersecurity Skills Readiness Program – Green Circle for Software Solutions, in partnership with the Ministry of Youth and Dataspace (2026)
- Capacity-Building Training for Greenhouse Gases (GHGs) Inventory
- Urban Planning, Land Use Governance, and Green Building Rating System Training
